**Planning for the Future of  
the Dawson Campus**

## ***Just Do It Now* has big plans to convert the Dawson Elementary School Campus into The Dawson Community Resource Center!**

The Dawson Community Resource Center will serve every member of the community, with a variety of services ranging from after-school activities for children to vocational training and comprehensive wellness programs for adults. There is also ample room for office and retail space in these buildings.

The map below shows how every part of the campus **COULD** be converted for use as part of the Dawson Community Resource Center. Changes are expected as the buildings become occupied. The implementation plan on the right provides an overview of a schedule for bringing various services to the Center.

Just as the uses shown for the various building areas is open to change, the timetable for the Phased Implementation Plan is flexible and can be revised as the project develops.

The potential of this property is incredible. *Just Do It Now* welcomes your support and involvement in our efforts to make the Dawson Community Resource Center a successful asset to the community.

Progress reports along with scheduled events will be posted on our website at [www.jdin.org](http://www.jdin.org)
